

## Decrease in youth

Farmer 1970 About 1025 million people  
Now About 21 million people

Fisher man 1970 About 570,000 people  
Now About 170,000 people

The majority is over 60 years old.

### Image

- Tight
- dirty
- not cool
- Can't make money
- Can't get married

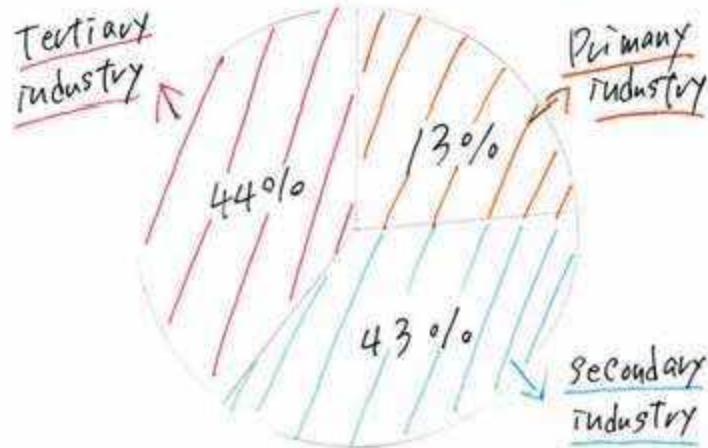

### Improvement

- Cool
- can earn
- Impressive

## Summary

- Primary industry has been abolished by various era backgrounds such as aging and decrease in youth.
- Use the modern internet to find ways to match the times.
- How to interact with foreigners is important.

## Percentage of each industry

# FUTURE OF PRIMARY INDUSTRY

Hirosaki Minami high school

12HR Group 3

## Farming

< Pending issue >

Aging and declining bearers.

2010 25% of 2.6 million people are over 65 years old.

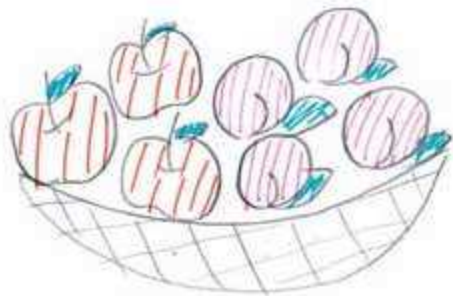

2016 65% of 1.92 million people are over 65 years old.

< Measures >

Improve cost and income.

Support for human resource development, machinery and facility maintenance.

## Forestry

< Pending issue >

Forests cannot be maintained because forests are not harvested by cutting down standing trees, and the forests have become rough.

< Measures >

If forests can be converted into energy supply bases, they will be activated.

## The marine product industry

< Pending issue >

Reduction of marine resources

The total catch in 1984 was 12.82 million tons.

The total catch in 2016 was 4.36 million tons.

< Measures >

Perform river improvement work and coastal revetment
