

◦ Classification of endangered species

◦ Consideration

Global warming is getting serious because of us. We think we have to change the way we live by realizing that we are killing living creatures.

Thank you very much!

Aomori's Environment
 Hirosaki
 Minami High School
 14HR-Group 5

PURPOSE

Get to know the state of the ecosystem in Aomori Prefecture!

MOTIVE

- We hear the number of alien species has increased in recent years and that native species have decreased.
- We want many people to know the charm of Aomori Prefecture.

in Shirakami

Endangered species and natural monuments

- Endangered species Black bear (Vulnerable), Golden eagle, Bear hawk etc.
- Natural monument Antelope, Dormouse, etc.

World Heritage Shirakami Mountains

「Beech」 *Fagus crenata* Blume
8000 years ago (early in the Jomon period)

Q Why was it registered as a World Heritage Site?

· Beech forest is almost untouched (Registration standard IX)
→ Unusual worldwide!

Q Not only beech but also the surrounding environment (the sea, etc.) is very valuable!

★ Shirakami Mountain is

A region made up of mountains about two sky trees high!

◦ But the problem is

Global warming had reduced the number of places suitable for growing!

now

◦ What can we do?

- Don't leave the TV on.
- Take my bag when shopping.
- etc.
