

Here are some
barrier-free toys!

Tomika 4D

If you push the car body
of Tomica for a long time
from the top, it starts to
vibrate with the engine
sound, and if you turn
around as it is, it turns
in to a nocturnal person,
so you can enjoy it!

Think about
barrier-free
toys ...

We can get information
from eyes, ears and hands.

We mixed them to think
a barrier-free toy!!

Let's feel familiar with
barrier-free toys!!

Thank you!!

Anyone can play with

BARRIER FREE TOYS

PURPOSE

Let's think about barrier-free toys!

First of all what is barrier-free?

It means an elderly person, and handicapped person, will be able to use it freely.

Then, what are barrier-free toys?

They are toys anyone including an elderly person, handicapped person, can play with.

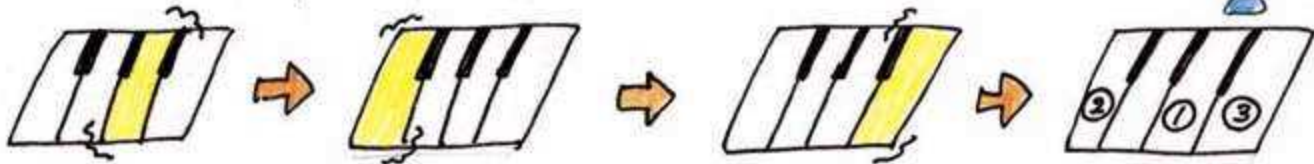

We were thinking about barrier-free toys

This toy made a motif of a piano

change mechanism of a key board!

★ For visually impaired people to play...

The keyboard vibrates!

You can play in order even if you can't see.

★ For hearing-impaired people to play...

The keyboard glows!

How to play

Success if you can hit the keys in order of light! if you can't, you can challenge it again!

It's hard to think about barrier-free toys...
